INDEX.

List of sub-headings :—CABLES, CENTRAL STATIONS, CITY NOTES, CONTRACTS OPEN AND CLOSED, CORRESPONDENCE, ELECTRICAL, ELECTRICITY, ELECTRIC LIGHT, LEGAL, NEW COMPANIES, OBITUARY, OFFICIAL RETURNS, PERSONAL, RAILWAYS, REVIEWS, SOCIETIES AND INSTITUTIONS, TELEGRAPH, TELEPHONE, TRACTION AND TRAMWAYS.

ABBOTT, A. V., on the Evolution of the line signal, 356
Accident, Bradford tramway, 462, 482, 532, 570, 605, 754, 806
„ fatal—not electrical, 248
„ fly-wheel, 315, 423
„ on the Waterloo and City Railway, 48, 500
„ Peculiar, 56
„ Wellingboro' Railway, 363
Accidents, Electrical, 496
„ Elevator, 982
Accumulation null method, Joint test, supplement to Raymond-Barker's, by A. D. Constable, 37
Accumulator, A big prize for an automobile, 313
„ and trolley wire, Electric tramway traction by combined, by E. Kilburn Scott, 340, 394
„ Chicago 460-ton, 2
„ competition, 949
„ Hatch, The, 697
„ omnibus in Berlin, 833
„ traction, 540
Accumulators at Hanover, 919
„ (Fulmen), Tommasi system, at the Exhibition of Automobiles, 179
„ Theory of, 21, 762
„ The use of, in connection with lighting and traction systems, by J. H. Rider, 136, 176
Acetylene, Action of light on, 362
„ gas, Calcium carbide and, 3
„ Poisonous action of, 247
Acids, Electrolysis of the alkali salts of organic, 422
Action of drop electrodes, 281
„ of electricity on plants, by E. H. Cook, 503
„ of light on acetylene, 362
„ of the silent electrical discharge on liquid dielectrics, 986
Acts passed, 268
Adjudication order, 306
Admiralty and electric driving, 129
Advance in fire alarm telegraph protection, A great, by J. W. Aydon, 454
Advantages of mechanical draught, 228
Aerial navigation, The present status of, 387
Agriculture, Electricity in, 698
Air, Dielectric strength of, 150
Alarums, Electrical, by J. Ebel, 649
Allen, A. H., on Electric canal haulage, 505
„ -Silvertown plant for Woolwich Arsenal, Combined, 674
Allgemeine Electricitäts Gesellschaft, 796
Alkali salts of organic acids, Electrolysis of the, 422
Alloys for bearings, The micro-structure of, 499
„ The constitution of, 491
„ The electrical resistance of, 293
Alternate currents, Aluminium as an electrode in cells for direct and, by E. Wilson, 371, 434, 443
Alternating current instrument, A new form of, by A. C. Heap, 439
Alternating current meter patents, 950
„ current motors, The use of single-phase, 827
„ current problems, The use of simple sine curves in, by W. G. Rhodes, 395
„ current systems, 220 volts and, 562
„ currents, A new phase in, 414
„ currents, Application of, to electric traction, 648
„ currents, Distribution by direct and, 225
„ currents, Methods of determining the frequency of, by Karl Kinsley, 614
„ machine, with revolving inductor, 778
„ motors, Some notes on the practical use of single-phase, by E. E. Hoadley, 66
Alternators for the Metropolitan Electric Supply Company, New, 453
„ Parallel running of, 921
Aluminium and copper, Notes on the relative costs of, by J. B. C. Kershaw, 904
„ as an electrode, 248
„ as an electrode in cells for direct and alternate currents, 371, 434, 443
„ conductors for power transmission, 532
„ copper, and iron, The relative costs of, when used as electrical conductors, by J. B. C. Kershaw, 331
„ Manufacture of, 770
„ New use for, 275
„ works, Milton, 230
Amazon rubber output, 345
Amendment of patent, 523, 578
America and her new possessions, 247
American amalgamation, Rumoured, 463, 533
„ Association for the Advancement of Science, 847
„ electric light system, 569
„ „ traction, French view of, 773
„ gas power station, An, 531
„ Institute of Electrical Engineers, 795
„ machine tools, English and, 909
„ made electrical machinery, 930
„ rubber wire factory, A new, 557
„ tool trade, 498
„ view of German competition, 648
„ view of the London tramway situation, 947
Americans, Inventiveness of the, 683
Ampere, Value of the, 474
„ -volt-wattmeter, A hot-wire combined, by Michael B. Field, 767, 811
Analyser, An harmonic, 279
Anderson's surface contact electric traction system, 657
Another new engine, 984
Appleton, Joseph, on Recent developments in the applications of storage batteries, 353, 391
Application for discharge, 971
„ of alternating currents to electric traction, 648
„ of gas power to marine purposes, by W. H. Booth, 298
„ of superheated steam, 857
„ of the electric motor to small industrial purposes, and its effects on trade, and on the community generally, by A. H. Gibbings, 408
Applications and production of ozone, 295
„ for electric lighting and tramway provisional orders, 778, 821
„ of storage batteries, Recent developments in the, by Joseph Appleton, 353, 391
Appointments, 130, 162, 249, 387, 462, 500, 533, 590, 605, 683, 718, 796, 873, 911
„ vacant, 129, 168, 209, 249, 316, 387, 464, 532, 571, 605, 755, 795, 835, 873, 911, 946
Aqua ammonia for fire extinction, 421
Aqueous solutions, Calculation of the conductivity of, 347
Arc, Drop of potential at the carbons of the electric, by Mrs. Ayrton, 504
„ Effects of the, on the eyes, 836
„ lamp carbon not an arc lamp carbon, When is an, 422
„ „ Cotsworth's, 8
„ „ decision, Enclosed, 716
„ „ Duflos, 475
„ „ patents, Enclosed, 682
„ „ The Sonja, 342
„ lamps, Economical carboning of, 423
„ „ Enclosed, with incandescent lamp resistance, 168
„ „ Korting & Mathiesen's improved heat compensator for shunt, 197
„ „ New carbon for, 19
„ lighting plant, Modern, 518
„ machine, The Brush multi-circuit, 910
„ Works, Chelmsford, The new, 201
Argon and its companions, 215
Armstrong's (Lord) experiments on the electric discharge, 834
Army manœuvres and military telegraphy, 277
Arniston Colliery, Electrical pumping at, 449
Aron electricity meter, 533
„ meter, The, 209
Arresters, Lightning, 532
Association of Municipal Corporations, 607
Asynchronous motors, Polyphase, by W. G. Rhodes, 331
Atmospheric air, Influence of the silent discharge of electricity on, 365
„ electricity, Lighting by, 871
„ electricity, Terrestrial magnetism and Prof. A. W. Rucker's report to the B.A. International Conference on, 429

Atmospheric resistance to trains, 517
Atwood, G. F., on A direct-reading mean effective pressure indicator and power gauge for engines, 551
Australian electrical news, 177
Austrian mechanical stoker, An, 514
Autocar motors, 698
Automatic boiler feeding, 969
„ motor starter, Under voltage and overload, 129
„ telephone exchange, 332
Automobile Club, The, 283
„ trials, 603
„ vehicles, 18
Automobiles, Electric, 829
Auxiliary plant, Notes on the electric lighting system at Bristol with special reference to, by H. F. Proctor, 404
Awards, 129, 836
Aydon, J. W., on A great advance in fire alarm telegraph protection, 454
Ayrton, Mrs. on Drop of potential at the carbons of the electric arc, 504
Ayrton's (Prof.) address at the B.A., 410

BABCOCK boilers at Boston, 499
Bad wiring at Buenos Ayres, 498
Ball bearings, 321
„ race, The, by Mark Barr, 769
Balloon signalling, The use of electric in Arctic and Antarctic expeditions, by Eric Bruce, 505
Baltimore Harbour, Explosion of submarine mines in, 599
Bankruptcy proceedings, 12, 43, 80, 115, 341, 374, 413, 449, 485, 524, 556, 590, 629, 665, 702, 741, 860, 895, 931, 971
Banks, Industrial, and electrical developments on the Continent of Europe, 547
Barr, Mark, on The ball race, 769
Batteries, Charging secondary, 438
„ Low resistance Leclanché, 779
„ Storage, for road traction, 925
„ (Storage), Recent developments in the applications of, by J. Appleton, 353, 391
Battery, A new water, 403
„ Hart secondary, 797
„ Improved form of primary, 718
„ New portable testing, 666
„ system (Common), for the Chicago Telephone Exchange, 621
„ The Doe primary, 440, 462
Battlefield communication, 94
Bearing stresses, 872
Behaviour of a transformer at the instant of switching on, by Alfred Hay, 326, 333
„ of chromium, Electromotive, 373
Belfast Electric Lighting Works, 783
Belt driving, 435
Belting, Notes on, 322
Belts and pulleys, Power transmission by, 305
Berchem's automatic steam cylinder drain valve, 268
Bermondsey provisional order, 130
Bit stock, Improved, 280
Blackheath tragedy, The, 282
Blackpool and Fleetwood Electric Tramway, 123
„ Winter Gardens, Cost of electricity at, 796
Blast furnace as a source of power, The, 962
„ „ gas as a motive power, 607
„ „ „ Experiments with, 540
Blue-print process, A simple positive, 420
Board of Trade, To the, 56
Boiler accidents, 777
„ fatality at Messrs. Siemens's works, 755
„ feeding, Automatic, 969
„ feeding by injectors, by J. Whitcher, 303
„ inspection, 267
„ room economy, 603
„ The choice of a, 397
„ testing, 148
„ waters, The chemistry of, 142
Boilers, Effect of the drought on steam, 642
„ (Water-tube) at sea, 315
Booming "Electricity Supply" shares, 606
Booth, W. H., on the Application of gas power to marine purposes, 298
Booth, W. H., on The influence of the variation in specific heats upon the theory of the gas engine, 554
Borough Polytechnic Institute, 910
Boston Street Railway Convention, 647
Bradford electric tramways, 163, 299
„ „ tramways accident, 462, 482, 532, 570, 605, 754, 806
Bramwell, Sir F., on Municipal electrical work, 162
Breakdown at Brighton, The, 699
Breaks in submarine cables, 651
Bright, Chas., on the Pacific cable, 467
Brighton breakdown, 699
Bristol Waggon and Carriage Works, electric power and its application on the three-phase system to the, by W. Geipel, 427
British Association, 385, 423
„ „ address to the mechanical science section, 503
„ „ discussion on motors, 448
„ „ presidential address, by Sir Wm. Crookes, 366
„ „ Prof. Ayrton's address, 411
„ Columbian Copper Co., A new, 909
„ investments in Turkey, 268
„ postal officials in America, 837
Brooklyn Bridge, Electrolytic action on the, 532
„ Elevated Railway, 57
Brown, Boveri & Co., The works of Messrs, 377
Bruce, E., on the Use of electric balloon signalling in Arctic and Antarctic expeditions, 505
Brush-holder, The reaction carbon, 548
„ multi-circuit arc machine, 910
Burning question, The, 694, 849, 929

CABLES—
Africa and All-British cables, 277
Amazon, 494, 945
America and French cables, 907
American made submarine, 94
„ telegraph, 907, 981
„ Trans-Pacific, 830, 831
Australian cables, Proposed addition to, 601
Breaks in submarine, 651
Brest to Cape Cod, 311
„ -New York new, 596
Canadian Pacific, 345
Communication with Australia, 639
„ „ Cape Colony, 185, 345
„ „ Cape Colony, Interruptions, 208
„ „ Spain restored, 127
Empire and the telegraph cables, 17, 641
French, and war, 869
„ Atlantic, 277, 315
German cable to China, 831
Hawaiian, 127
Heavy cable tests, 422
Iceland, 312
Imperial cable service, 967
Manila, 160
New cable steamer, 17
„ French in the Soudan, 245
Pacific cable, 245, 278, 384, 419, 529, 793, 907, 976
„ „ Australians and the, 208
„ „ Building a, 245
„ „ by Chas. Bright, 467
„ „ needed, 494
„ „ Proposed American, 208
„ „ route survey, 92
„ „ All-British, 945
Proposed new cable to the Cape, 92
Rates, 751
„ to Australia, Reduction of, 460
Routes, Side lights on, 441, 464, 480, 530, 567
Ship, *Anglia*, The Telegraph Construction and Maintenance Company's twin screw, 564
„ *H. C. Oersted*, 17
Steamer, 752
Strategic, 870
Submarine, 870
„ vessels, 659
Trans-Pacific, A, 831
Vacuum quick-drying apparatus for, 375
Cabs, Electrical, and charging stations, 511
„ „ „ in France, 900
Cadmium and its alloys, Some notes on the electro-deposition of, by S. Cowper-Coles, 587
Cahen, A. A, and Donaldson, J. M., on a Comparison between charging a secondary cell at constant potential and at constant current, more especially as regards efficiency, 433
Calcium carbide, 58, 196
„ „ and acetylene gas, 3
Calculation of the conductivity of aqueous solutions, 347
„ of three-phase circuits, A convenient rule for the, 530
Calculations for electric light wiring, 655
Calculator, Pocket, 604
Cambridge assessment, The, 895
„ Electric Supply Company, and the Cambridge Union, 665
„ University, Mrs. Hopkinson's gift to, 604
Canal haulage, Electrical, 361, 387, 911
„ „ „ by A. H. Allen, 505
„ traction, Electrical, 497, 854, 888, 923, 963
Candle-power of incandescent lamps, Standard, 9
„ „ of lamps for decorative purposes, 834
Capacity of wires, Electrostatic, by W. Moon, 478
Capillary electrometer for measuring insulation resistance, 218
Carbon brush-holder, The reaction, 548
„ for arc lamps, New, 19
Carboning of arc lamps, Economical, 423
Carbons of the electric arc, Drop of potential at the, by Mrs. Ayrton, 504
Carter, F. W., B.A., on the Smashing point of a glow lamp, 263
Cast-welded rail joints, Falk, 178
Cell, A new transition, 373
„ Clark, Changes that take place in a, 129
„ The Daniell as a standard, 603
„ The Weston standard, 947
Cells, Chloride of silver, 246
Central station steam engineering, 358

CENTRAL STATIONS—
Belfast, 783
Cork, 937
Development of the, 108
Developments in central station plants, New, 422
Eccles, 977
Folkestone, 711
Hull, 669
Morley, 85
Salisbury, 941
Winchester, 35

Chancery notice, 941
Changes induced by light, Physical, 987
„ that take place in a Clark cell, 129
Charge of theft, 43
Charging a secondary cell at constant potential and at constant current, more especially as regards efficiency, Comparison between, by A. A. Cahen and J. M. Donaldson, 433
„ secondary batteries, 438
„ stations, Electric cabs and, 511
Charters Towers (Queensland) electricity works, 273
Chemical action of the electric spark, 497
„ effects of the silent electric discharge, 348
„ equilibrium and E.M.F., 987
Chemistry of boiler waters, 142
„ of high temperatures, 179
„ Relation of, to electrical engineering, 75
Chicago telephone exchange, Common battery system for the, 620
„ 460-ton accumulator, 2
Chlorate works, The St. Michel electrolytic, by J. B. C. Kershaw, 791
Chloride of silver cells, 246
Chlorides, bromates, iodates, and hypochlorates, The manufacture of, 949
Chlorine, bromine and iodine, A quantitative electrolytic separation of, 349
Choice of a boiler, The, 397
Chromium, Electromotive behaviour of, 373
„ Some notes on the electro-deposition of, by S. Cowper-Coles, 477
Chronograph, New, 423

Circuit breaker, A new, 887
„ breakers, *v.* fuses, 497
City and South London Railway Extensions, 901
„ Company and competition, The, 910, 983

CITY NOTES—
Alderley and Wilmslow Electric Supply, 684
Aluminium Company, 318
Anglo-American Telegraph Company, 134, 173, 211, 500
Aron Electricity Meter, 608, 951
Automatic Telephone Company, 988
Babcock & Wilcox, 388, 424
Blackheath and Greenwich District Electricity Company, 96
Bournemouth and Poole Electricity Company, 212
Brazilian Submarine Telegraph Company, 500, 608, 644, 876
„ „ Telegraph Company and the Western and Brazilian Telegraph Co., 132, 169, 212, 250
Bright's Light and Power Company, 134
Bristol Tramways and Carriage Company, 212, 284
Britannia Motor Carriage Company, 952
British Aluminium Company, 174
„ Columbia Electric Railway Co., 534
„ Electric Traction Co., 60, 875
„ Insulated Wire Company, 212
Brompton and Piccadilly Circus Railway Company, 60
Brush Electrical Engineering Company, 350, 388, 424
Callender's Cable and Construction Company, 388, 644
Canadian, British Columbian, and Dawson City Telegraph Company, 911
Cape Electric Tramways Co., 350, 988
Castner-Kellner Alkali Company, 500
Central London Railway Company, 173, 212
Charing Cross and Strand Electricity Supply Corporation, 174
Chatham, Rochester and District Electric Lighting Company, 211
Chili Telephone Company, 212
Chloride Electrical Storage Syndicate, 318
City and South London Railway Company, 60, 133, 172
„ of London Electric Lighting Company, 23, 134, 644
Claud Hamilton, 608
Clayton Engineering and Electrical Construction Company, 912
Commercial Cable Company, 388, 876
Companies struck off the register, 524
Consolidated Telephone and Construction Company, 132, 171, 284, 317
County of London and Brush Provincial Electric Lighting Company, 134
Crompton & Co., 96, 133, 173
Cuba Submarine Telegraph Company, 756 798
Direct Spanish Telegraph Company, 464
„ U.S. Cables Company, 96, 130, 174 500
„ West India Cable Company, 912
Douglas Southern Electric Tramways, 988
Doulton & Co., 838
Dublin United Tramways Company, 134
Eastern Extension, Australia and China Telegraph Company, 23, 500, 608, 643, 876
„ Telegraph Company, 132, 534
Edison & Swan United Electric Light Company, 134, 172, 210, 756
Edmundsons' Electricity Corporation, 23, 95, 838, 912
Electric and General Investment Company, 23, 838
„ Construction Company, 60, 95, 132, 171, 931
„ Railway and Tramway Carriage Works, Limited, 212
Electrical Power Storage Company, 60, 95, 131
Electricity, Limited, 350
Evered & Co., 464
Fleetwood and District Electric Light and Power Syndicate, 131
Folkestone Electricity Supply Company, 23
Fort William Electric Lighting Company, 608
